(54) Title: DRUG ADMINISTRATION SUPPORT SYSTEM

(57) Abstract: The total clearance of a drug is calculated based on the blood filtering information, biological information and drug information. The total clearance is displayed on a drug administration support screen (24). The drug administration support screen (24) provides a guideline of the dose of a drug which varies dependent on the level of the renal creatinine clearance. Specifically, the renal clearance of the drug and the clearance of the drug due to continual hemofiltration (CHF) are shown in a graphical form, and a guideline of the dose of the drug is provided which varies dependent on the level of the total clearance. Accordingly, the user can easily recognize the meaning of the guideline by referring to the total clearance of the drug shown in the graph. The drug administration support display screen (24) also provides additional information necessary for drug administration as appropriate.

INTERNATIONAL SEARCH REPORT

International Application No

PCT/IB2005/050729

A. CLASSIFICATION OF SUBJECT MATTER

G06F19/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ, INSPEC, EMBASE

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

Further documents are listed in the continuation of box C.

Patent family members are listed in annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

"&" document member of the same patent family
